[From the San Francisco Alta.] Report of the Survey of the Central Silver Mine, Santa Cruz County.

The following is a copy of the official report of the survey of the Central Silver Mine, Santa Cruz county, made by that very scientific mining engineer, C. S. Sinders, Esq. :

Aug. 1.-Left San Francisco in good spir-

its; Company's funds in pocket; stopped at Lake House for refreshment. Aug. 2.—Left Lake House, and after an arduous ride reached the Grean House; inquired the prospects for immense deposits of Silver in Santa Cruz—result satisfactory; took refreshment. Aug. 3.—After severe riding in the stage

Aug. 3.—After severe raing in the stage reached San José,—mind more fully impressed with the fabulous wealth of the surrounding country. San José is the Spanish for Joseph, and is pronounced Hosay.

Aug. 4.—Fully aware of the importance of immediately surveying and reporting value of our mine to the stockholders, restreet and to work the stockholders.

value of our mine to the stockholders, re-solved not to remain in San Jose more than three weeks; delightful society in this place; senorilas (Spanish for young lady) perfectly beautiful; the choicest wines, liquors and segars can be had at the same prices as at the "Snug" or "Martin's," in San Francisco.

San Francisco.

Aug. 25.—Tore myself away on mule back, and met with three choice spirits on the road; Brown, Jake Smith, and Goldstein (relative of our Deputy Treasurer;) took refreshment.

Note.—The broiled quails and teal ducks

Note.—The brotted qualis and teal ducks stewed in champagne are delicious.

Note.—Beans for breakfast; reminded me of my early childhood; these tender associations overcame me, and I resolved to spend one week in this delightful spot.

Sept. 2.—More deeply impressed that dispatch was necessary to further the interests of the Company. Lagain telletantly lassed.

patch was necessary to turther the interests of the Company, I again reluctantly lassoed my faithful mule and made an impetaous rush towards Santa Cruz, which place I reached after a long and arduous ride, more fully impressed, from the mountainous formation of the country, that immense deposits were buried beneath the earth. Goldstein having "cleaned me out" of the balance of my funds on hand, I began the ontance of my tunds on hand, I began to be more deeply impressed with the importance of my mission. I entreated Goldstein (a relation of our treasurer) to accommodate me with a small draft on the treasurer, which he politely declined, on the ground that he had not been regularly introduced to me. I was suprised, but took some refreshment and retired.

Sent. 9 — Rui ing. took refreshment

Some refreshment and retired.

Sept. 9.—Raining; took refreshment.

Sept. 10.—No funds on hand; blacked
my boots and took refreshment.

Sept. 12.—Went to the place where our
mine is supposed to be located, got sever. I pieces of rock, and certificate of assay to the effect that the rock examined by Goldstein, (who put his seal to it as State Assayer of Santa Cruz cunity,) assayed \$20.000 to the ton. I then sent a letter to San Francisco, to the effect that another light assessment of \$300 was necessary to complete the survey of this mine, where fabilities wealth was unof this mine, where fabulous wealth was undoubtedly deposited, and that on the receipt of the "spondulix" I would load the schooner Harriet H. Lane with the precious

vey. The old red-eye, Mono gahela, and other beverages drank by the elite of Santa Cruz, recalled to mind the favorite "night-cap" and "eye-opener" of my paternal parient. It was his usual custom of the forenoon, afternoon, and middle of the day, to take a few does of red-eye, and in the afternoon. noon, afternoon, and middle of the day, to take a few doses of red-eye, and in the afternoon and balance of the day and night, to stick to "Old Bourbon." These paternal reminiscences so evercame me, that I did my illustrious pred-ecssor sufficient credit, by lying in a state of acute insensibility for one week—at least I was not conscientious for that space of time.

Sept. 26—Got up with a head-ache, and took some refreshment.

Sept. 28—Received note from Secretary of Company that, as the cargo of the H. II. Lane had not come to hand, Goldstein had been elected Superintendent, Chief Engineer, etc., over me. Thunderstruck at this announcement, I took some refreshment and wrote this report:

Prospective value of mine...\$100,000,000,000,000

Prospective value of mine...\$100,000,000,000 00
Actual value of mine...\$000,000,000 00
Actual expenses...\$75 38
Prospective expenses...\$15,375 83

Respectfully, etc.,

A number of marble slabs have just been fixed up in the vestibule of the grand stair-case of the Hotel Dieu, at Rouen, on which are engraved the names of all the known benefactors to the hospitals of that city from the 12th century to the present time. British Columbian Grants to Retired Officers.

The Press would have it understood that retired officers "undoubtedly possess the right to grants in British Columbia." It says according to the Colonization Circular, they have that right. On the contrary, the Circular only speaks positively of Ceylon, and places the right of retired officers to grants in the other Colonies named in the hands of the local legislatures. But the Press backs up its position by saying there is no local legislature in British Columbia, and therefore concludes that the "Colorization Circular is correct, although it would not be esteemed very high authority in a court of law. It the popular idea or definition of a leg slattire-that is, an Upper and Lower House-be the sole and exclusive meaning of the word legislature, then the Press s correct, if the Circular is right. But the word legislature would be more correctly defined by calling it "the supreme law-making power of the State." Whoever has power-whether a individual or a number of individuals-to make laws, absolute and bin ling on every subject within their jurisdiction, then that individual, body, or bodies, is de facto and de jure the legis ature of the country to which they belong. Our cotem. purary is a great blunderer; and in respect to the matter in hand has only made another, by imagining representative institutions to be the sole form of legislative power. By reference to the Organic Act of British Columbia, it will find there is a lawmaking power there, subject to the veto, not of the Crown, but of "both Houses of Parliament." Under the se old section of the Organic Act, Her Majesty can authorise and empower such Officer as she may appoint from time to time as Governor, to make, or lain, and establish all such Laws, Institutions, and Ordinances as may be necessary for the Peace, Order, and good government of Her Majesty's subjects therein; provided that all such Laws and Ordinances shall be laid before both Houses of Parliament, as soon as conveniently may be after the making and enactment thereof respectively." On this authority Gov. Douglas has made, laws for the sale of land in Bitish Columbia; in them there are no privileges conceded to retired officers; and until our cotemporary can show the clause in the procla nations which does so, or some Act of the Imperial Parliament, or some Order of the Queen in Courcil to support its position, we shall held that no retired At Rose Cottage Market, Wharf st, offi er can pay for land in British Columbia in by-gine military or naval services; and we believe our position will be maintained by all who interpret acts of parliament ac-

cording to the true intent and meaning of words and sentences. POPULATION OF ITALY.-We condense from a late European paper details of the p pulation and resources of Italy, which cannot fail to be of in erest at the present time to our numerous readers. The population of Italy amounts to no less than 27,-167,047 inhabitants. They are divided into 15 circumspections - eight, containing 19,-913,304 souls, are under Italian govern- ENTERTAINMENT! ments; and seven, with a population of 7,193,743, obey foreign rule. Paly contains 110 provinces, and 10,012 communes, and is one of the countries in which the larges! cities and towns are to e found, 19 of them having more than 50.000 inhabitants, and 8 (Rome, Naples, Palermo, Venice, Florence, Milan, Genoa and Turin) exceed 100,000. Milan, Genoa and Tarm) exceed 100,000. Aimost all the inhabitants are Roman Catholes, the number of those who profess ther Christ an creeds only amounting to 36,576, and the Jews to 31,497. The births far exceed the deaths; the increase in the population is particularly remarkable in Story and Tuscany, where it may double in 73 years. Italy alone has nearly one-half as many bishopries as there are in the whole of Europe; 256 out of 53). The average is 6,000 Cathories for each diocese, and in the Roman States there is one bishop for every 40,000 sants. the Roman States there is one bisnop for every 403,000 souls. The regular and secu-lar cergy of both sexes count in Italy 189, 000, and they are, as compared with the pop-ulation as 1 to 142. A New Governor for British Columbia.—A letter received from a gentleman who accompanied Capt. Pa liser over the who accompanied Capt. Father over the Rocky Mountains, mentioned the probability of a new Governor being appointed from home for one of these Colonies. As Capt. Palliser is known to have been much in communication with the Duke of Newcastle communication with the Duke of Aewcastle lately, the intelligence received from his friend can scarcely be regarded as otherwise than well founded, though not positive in its nature.—British Columbian.

We published a rumor to the above effect some two weeks since. The letter-writer referred to above is Dr. Hector, formerly attached to the Royal Boundary Commission. The new Governor is mentioned as destined for British Columbia, and implicit reliance is placed in the report by certain parties

Delinquent Traders.

Justices Pemberton and deCourcy sa yesterday afternoon, at 2 o'clock, in the Police Court room, to try several persons who had been summoned for neglecting to pay their licenses under the Trades' License Act, 1860. The Attorney General appeared for the prosecution.

Mr. J. F. McCreight appeared for Mrs McMeekin, a lady keeping a boardinghouse, who had been summoned under that portion of the Act referring to victuallers.

The Attorney General said that if no defence was offered, he would ask for the inifliction of a merely nominal fine.

Mr. McCreight withdrew his objection, and Mr. McCreight windrew his objection, and a fine of one shilling, with costs, was entered against Mrs. McMeekin—it being understood between the counsel that a license should be taken out immediately.

Mr. Dennes appeared for W. A. Boole, keeper of a hotel, and pleaded ignorance of the law.

On motion of the Attorney General, deci-

sion was reserved for one week, and notice given by prosecution that a license of £12 10s, must be taken out. Thos. Cheveau, baker, for whom Mr. Tim-

David Llewelyn, blacksmith, said that he had filled up a paper stating the amount of business transacted; had heard no more about the license till he was summoned to appear here.

Fined one shilling with costs, and prom-

ised to take out a license.

Francois Sallier, defended by Mr. Timmerman, had gone into business on the 28th January; went to Treasury on the 10th February; the officer there told him he did not know how much the license would be; had heard no more about it since; thought that £1 was all he would have to pay for a The Attorney General referred him to the

week; wished the case postponed for a Week.

The Attorney General declined to post-

pone; if the lady was going to leave the country in a week, she certainly would not pay a license; better make her pay \$4 into court, as the Chief of Police said she had been doing a big business.

Fined £4 with 14s, costs; if she takes out a license the £4 to be returned.

out a license the £4 to be returned.

Theodore Signor, Indian trader, doing a small business—\$3 or \$4 a day; had a notice up to quit business in a week.

Fined 1s. and costs; to pay £1 additional into court; if he takes out a license,

the £1 returned.

Madame Lechamp, poultry dealer; sold

Mr. Gordon, the treasu.er.

Postponed for one week.

The Lady Franklin Pic-Nic.

Yesterday, at 15 minutes to one o'clock, (dressed in red shirts, grey pants, and hats profusely decorated with various colored ing. ribbons) at the Hudson Bay Company's Wharf, for the pic-nic at Craigflower. Probslip a feeble cheer was raised. The boatmen plied their paddles industriously, and to Bayley streets, and having a front on as the frail bark shot like an arrow from the each thoroughfare. The stable will accomliar, we believe, to the Canadian boatmen on the Ottawa River U C. Several small sail Overhead is a loft, extending the full length and row-boats, in which were seated ladies and gentlemen, either preceded or followed the Lady's party. As the latter passed under Victoria bridge, three rousing, hearty British cheers were given by a crowd thereon assembled-the boatmen, meanwhile, keeping up their song and plying their paddles with an energy and steadiness of stroke not grocery and provision store. Several buildto besur passed even by the aborigines of the country.

At the time of departure the day was beautiful, and a stiff southwest breeze just served to ripple the waters of the harbor, and fine cottages in process of erection in various to increase the pleasure of the trip. THE SALE OF REAL ESTATE .- The aucgion sale of real estate and situated in Victoria and Esquimalt, by P. M. Backus yesterday, was not so successful as one would have thought judging by the prices realized at previous sales. A corner lot at Esquimalt sold for \$215; and three others for \$50, \$100, and \$65 each. The balance was withdrawn. Two lots situated in this city, between Mr. Thorne's and Mr. Rhodes' property, sold for \$100 and \$85 each; balance withdrawn.

THE INO CASE .- The case of Mr. Sullivan of the schooner Ine, accused of having stolen a large quantity of wrecked goods, was again postponed till to-day. The conthe cause of the frequent postponements.

Arrivals from the River.

The steamer Caledonia arrived from New Westminster at 4 o'clock, yesterday afternson. She brought six passengers and Ballou's express : but no treasure.

About six o'clock the steamer Otter arrived from the same place. She brought 25 passengers and the Expresses.

The amount of gold dust on board is variously estimated at from \$15,000 to \$18.000.

There is no later news from Carriboo or Rock Creek, no express or pack-train having arrived from those sections.

A meeting was held at Yale, on the 5th and a resolution passed declining to co-operate with Vancouver Island in the Industrial Exhibition business. Our sister colonists evidently mean to "go it on their own hook."

Another election, will be held at New Westminster for a member of the Town Council vice McClure, resigned, the previous election having been declared null and void by the returning officer.

Arrived at a secluded spot, the pistols were loaded by the seconds with powder only, and the sponge was saturated with red ink by the saloon keeper. The off, and the antagonists took their places. The Colonel looked as unconcerned as if he had just been asked to take a drink by an intimate friend, and expressed his intention to his seconds of slaying his adversary. JENKINS VS. CUSSON AND LITTLE.—At the sitting of the Cou t yesterday morning. His Lordship intimated that before giving his

decision herein he should require to hear a renewed argument by counsel on both sides, and fixed Monday next for that purpose.

The Attorney General appeared for the plaintiff; Mr. Ring and Mr. Dennes for defendant Cusson; and Mr. McCreight and Mr. Pearkes for defendant Little.

MAP OF BRITISH COLUMBIA.-Lieut. R. C. Mayne, of H. M. S. Hecaté, has kindly placed us under obligations by presenting us with a copy of his new map of the British Columbia mining region. It is about 40x30 inches in size. It embraces the whole country from the mouth of Harrison River till it reaches above Pavillion Creek; shows the Lillooet route to Cayoosh, the route via Fraser river to Pavillion, Thompson river and its branches. Nicola, and Lake River. It is the most perfect map we have seen issued; and gives a correct idea of the arteries of the interior of British Columbia between the points indicated above. Lieut. Mayne had the map made from notes taken on his tour of exploration in 1858 through the mines. He certainly deserves great credit for the admirable manner in which the map has been lithographed.

THE SAN FRANCISCO MINSTRELS .- This troupe gave another performance last evendistance-ten paces-was duly measured ing at the Colonial Theatre. The ballads, conundrums and overtures in the first part were all well rendered, and the oddities of the soi-disant negroes created great laughter. Mike Mitchell, as "Bones," was particularly happy. In the second part, Mr. Mitchell's dancing was encored, and gave great satisfaction; "Mesmerism," by Mitchell, Taylor and Watson, was fine; "Dublin Bay," by Taylor, and "Mac Dill Darrel Brothers," by the company, prime. The performances concluded with the "Burlesque Circus."
